960.00 acres . . . . . TOTAL.

NOTE: This certificate is issued only for a change in the point of diversion of a ditch to supply the above land. The amount of water set forth in such certificate is based on the apportionment allotted to the appropriators herein under the Thurtell Findings in and to the waters of the Walker River and Tributaries. Reference is made to the said Thurtell Findings for the original dates of appropriation of water for the various parcels of land included in the 960 acres listed herein, and this certificate is issued subject to such change as the Court may make when a final decree is entered in the case of the Pacific Livestock Co. v. T. B. Rickey, et al.

Owing to a slight change in the river channel, the point of diversion is located as above described, instead of in the SE $\frac{1}{4}$  of SE $\frac{1}{4}$  of Sec. 3, T 13 N, R 25 E, as stated in application No. 4429.
